RESEARCH EXPERIENCE

Institute of Computing Technology, Chinese Academy of Sciences

Research Assistant, advised by Prof. Xueqi Cheng and Prof. Fei Sun

– **Research Areas:** Trustworthy machine learning; LLM Safety; Machine Unlearning.

* Focus on the direction of unlearning in the safety of large language models, conducting replication experiments on the TOFU benchmark and further research.

* Research on evaluation methods and metrics for large language model unlearning, currently responsible for writing the evaluation section of the review on large language model unlearning.

* Exploring on evaluating the robustness of various unlearning algorithms using adversarial attack methods.
